SECTION 1: INTRODUCTION

Purpose of the Document

The LBC Track and Trace API allow users to trace shipments using the tracking number provided by LBC. It offers a simple and efficient way to retrieve shipment details and track events, making this information easily accessible to clients. The data returned by this API is the same as the information publicly available through the LBC Track and Trace portal.

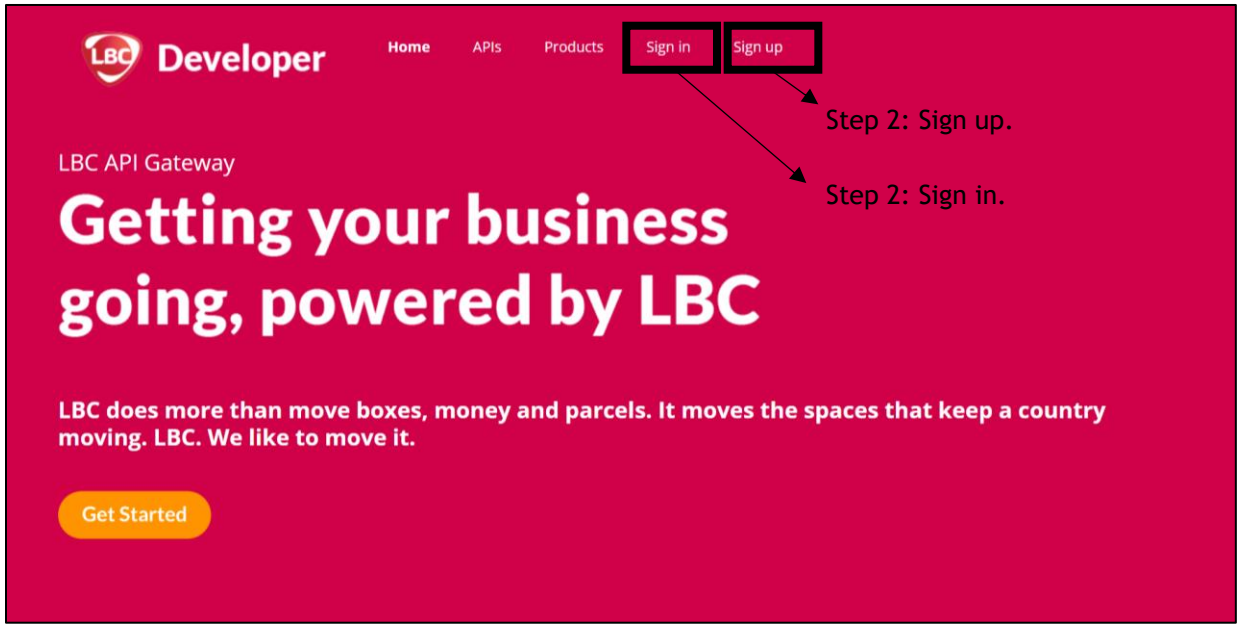

Scope of the Document

This API provides real-time updates and enhanced visibility for cargo transactions handled by LBC for both local and international shipments using tracking numbers. It enables partners and clients to retrieve up-to-date shipment statuses, movement history, and key tracking events in a structured and reliable manner. The API operates via POST requests, ensuring secure and consistent data exchange for tracking and monitoring shipment progress.

SECTION 2: ACCOUNT REGISTRATION

In this section, the client must follow the necessary steps to create his own account on the Developer Portal.

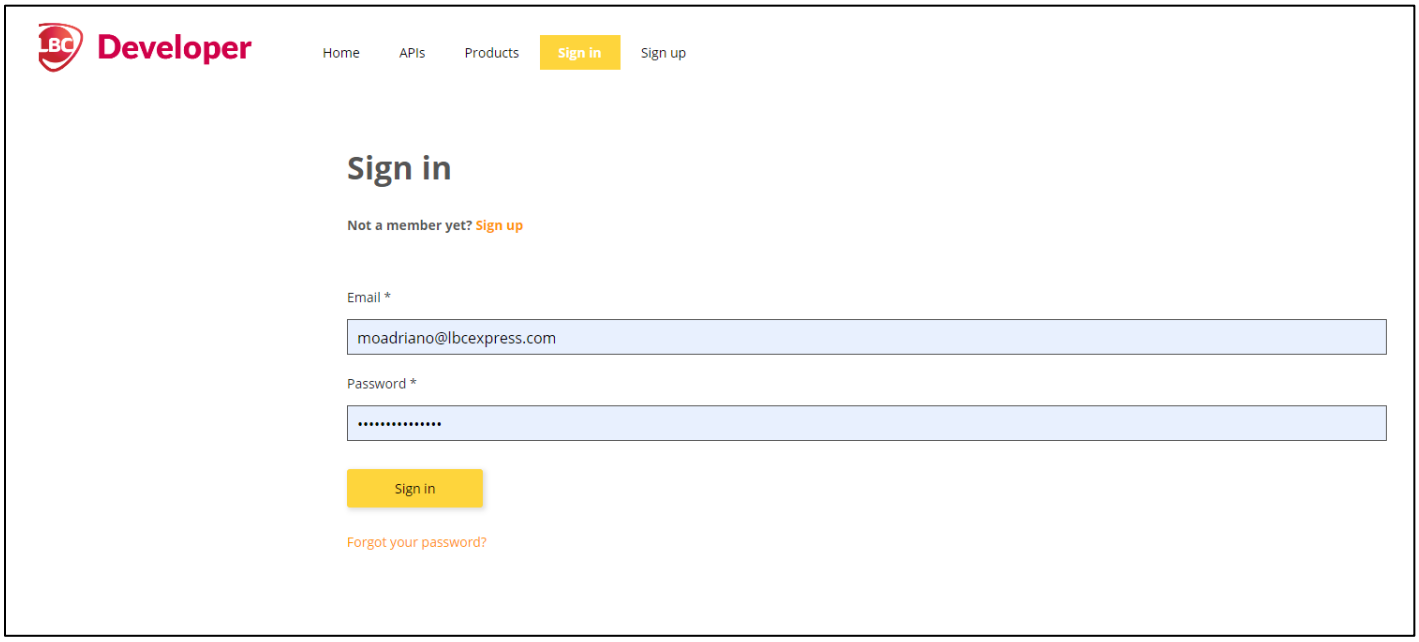

Step 1: Click this link: https://lbcapiservice.lbcapps.com/ to be brought to the Developer interface. This dashboard will allow you to take advantage of the API services provided by LBC.

Step 2- Sign Up: Click Sign Up to create your account on the portal. Make sure to fill up all the required fields to complete the registration process.

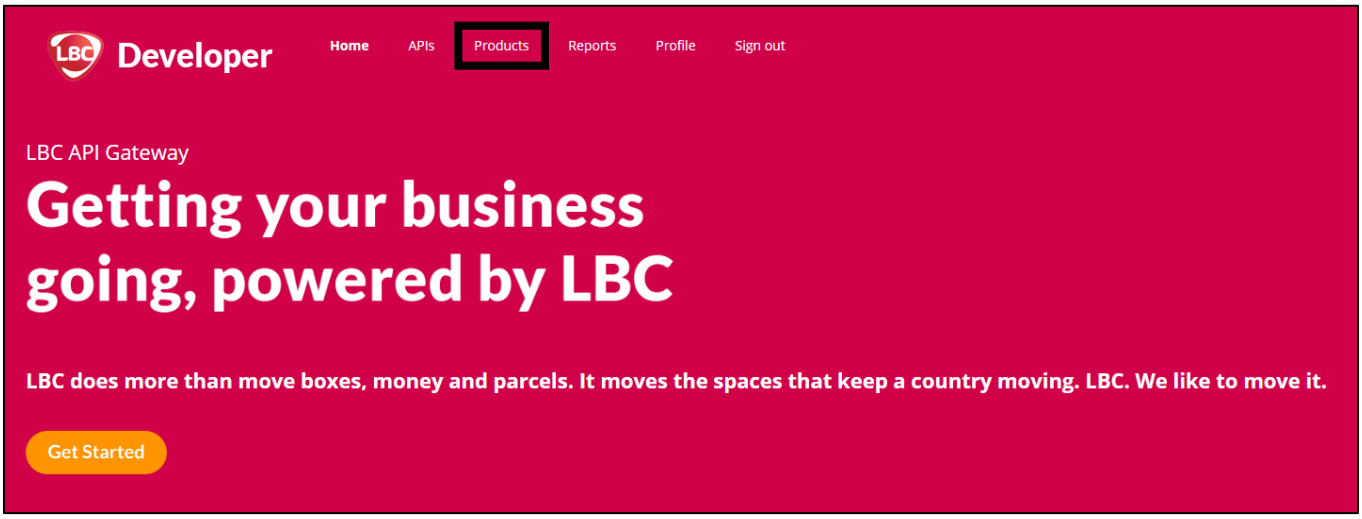

Step 2- Login: Use the email address and password you used when you signed up to gain access to the portal.

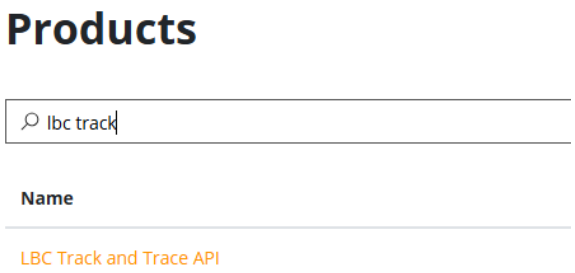

SECTION 3: CREATING AN API SUBSCRIPTION

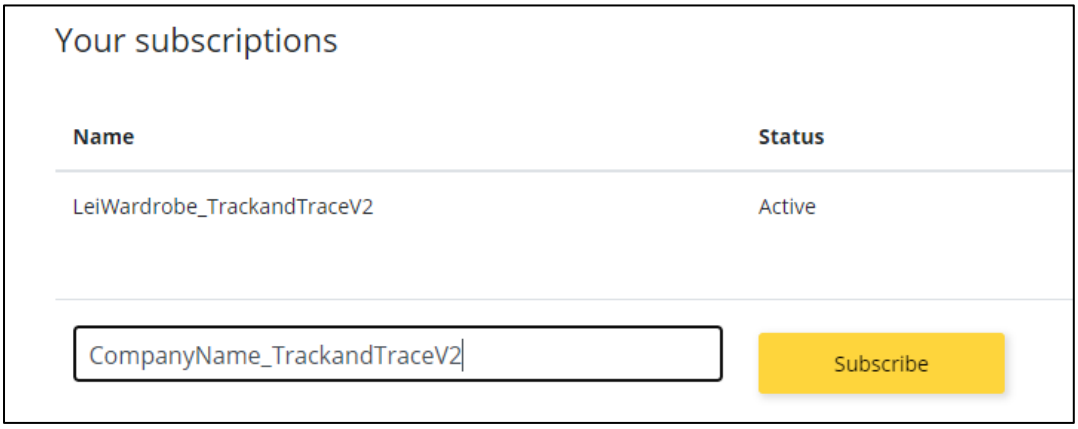

Step 1: Click Products tab to see the list of product or service provided by LBC.

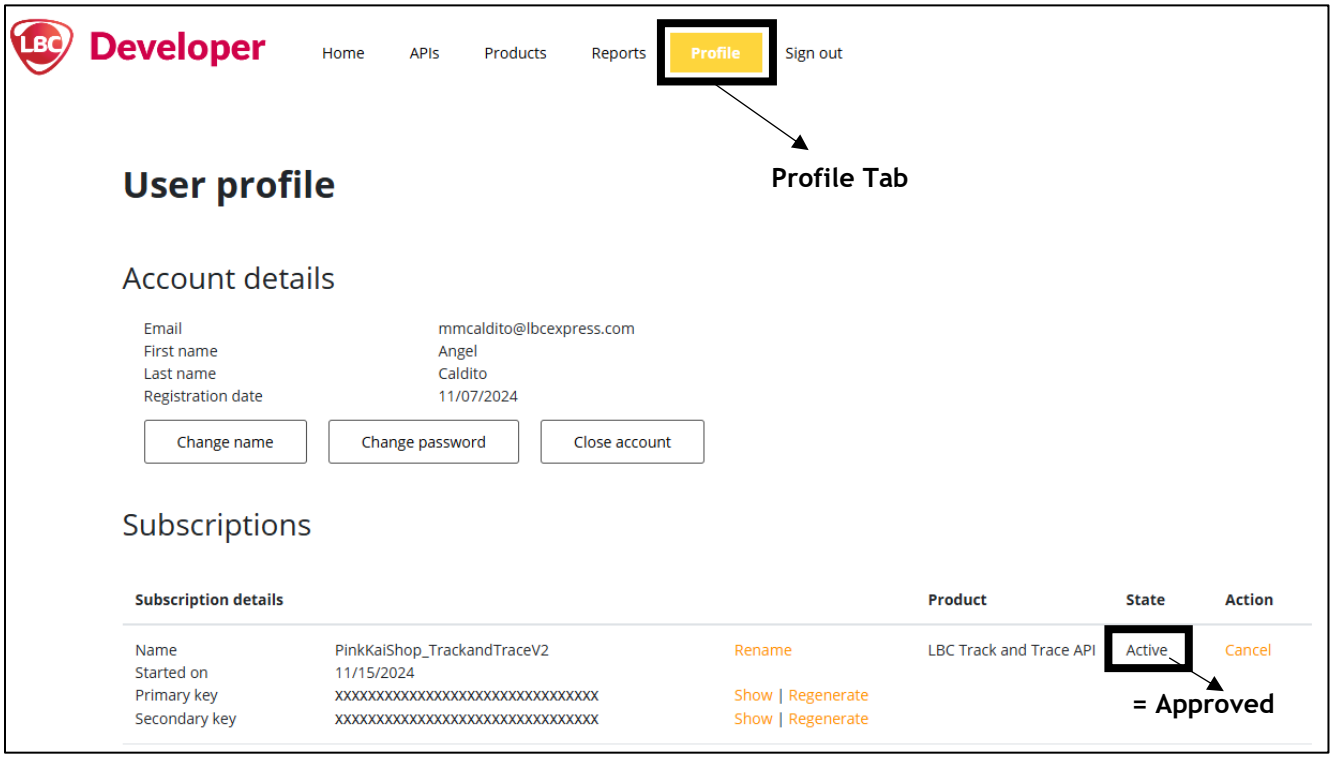

Step 2: Search for the LBC Track and Trace API and click on it.

Step 3: Create a subscription name using the Format CompanyName_TrackandTraceV2, then Click Subscribe button. Kindly note that your subscription will remain inactive until your application is approved by the administrator.

Step 4: Click the **Profile** tab to view the status of all your LBC product subscriptions, including the Track and Trace API. An **Active** status indicates that the subscription has been approved by the LBC Admin.

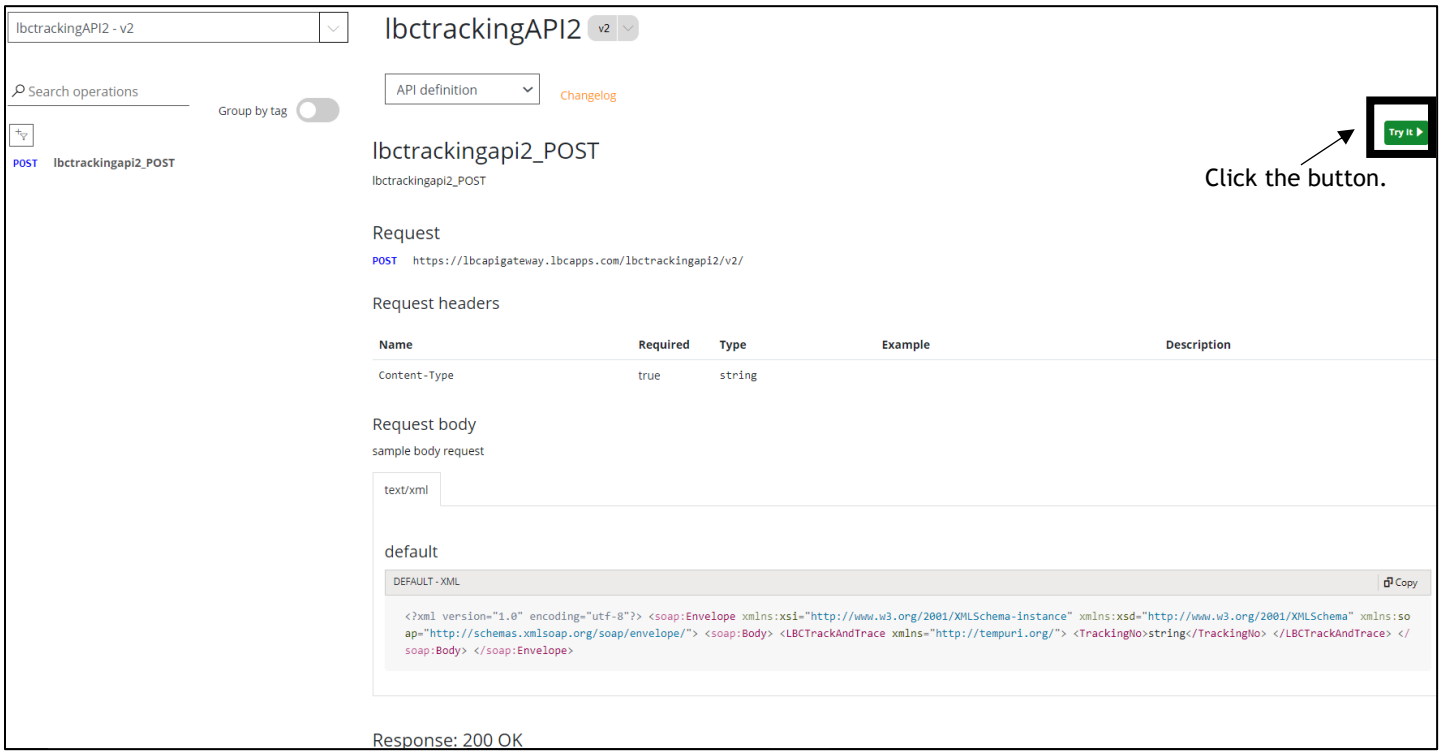

SECTION 4: TESTING VIA LBC DEVELOPER PORTAL

Step 1: Go to API's Tab, look for TrackAndTrace-v2, and click that link.

Step 2: Click the "Try it" button at the upper right corner of the page.

Step 3: Input the payload on the body then Click Send button.
